

Contract No. 585-9851

Agreement to Supply: HOLIDAY LIGHT DECORATIONS - BEACH BUSINESS IMPROVEMENT DISTRICT

This agreement, made and entered into this the 11 day of November, 2007, is by and between the CITY OF FORT LAUDERDALE, a Florida municipality, City Hall, 100 North Andrews Avenue, Fort Lauderdale, FL 33301, hereinafter called the "City" and Contractor:

Name: Brandano Displays, Inc.

Address: 1280 NW 22 Street City: Pompano Beach State: FL Zip: 33069

A Corporation ☒ A Partnership ☐ An Individual ☐ Other:

authorized to do business in the State of Florida, hereinafter called the "Company" or "Contractor." Witnesseth that: Whereas, the City did advertise and issue a Request for Proposal (RFP) for supplying the requirements of the City for the items and/or service listed above for a period of one year with four, one year extension options and the Contractor submitted a proposal that was accepted and approved by the City.

Formal authorization of this contract was adopted by the City Commission on: November 6, 2007 Pur-11

Now, therefore, for and in consideration of the mutual promises and covenants herein contained, the parties covenant and agree as follows:

1. The Company agrees to provide to the City holiday light decoration services, during the period beginning 11/08/07 and ending 11/05/08 for the requirements listed above and according to the following specifications, terms, covenants and conditions:

a. This contract form G-110, the Request for Proposal containing General Conditions, Special Conditions, Specifications, addenda, if any, and other attachments forming a part of RFP Number 585-9851 and the Contractor's proposal in response, form a part of this contract and by reference are incorporated herein.

b. In construing the rights and obligations between the parties, the order of priority in cases of conflict between the documents shall be as follows:

- 1) This contract Form G-110, Rev. 12/00
- 2) The City's RFP and all addenda thereto
- 3) Contractor's proposal in response to the City's RFP

c. **Warranty:** The Company by executing this contract embodying the terms herein warrants that the product and/or service that is supplied to the City shall remain fully in accord with the specifications and be of the highest quality. In the event any product and/or service as supplied to the City is found to be defective or does not conform to specifications the City reserves the right to cancel that order upon written notice to the Contractor and to adjust billing accordingly.

d. **Cancellation:** The City may cancel this contract upon notice in writing should the Contractor fail to reasonably perform the service of furnishing the products and/or services as specified herein upon 30 days written notice. This applies to all items of goods or services.

e. **Taxes Exempt:** State Sales (85-8012514506C-7) and Federal Excise (59-600319) Taxes are normally exempt, however, certain transactions are taxable. Consult your tax practitioner for guidance where necessary.

f. **Invoicing:** Contractor will forward all invoices in duplicate for payment to the following: Finance Department, 100 N. Andrews Avenue, 6th Floor, Fort Lauderdale, FL 33301. If discount, other than prompt payment terms applies, such discount MUST appear on the invoice.

2. Contract Special Conditions: The following special conditions are made a part of and modify the standard provisions contained in this contract Form G-110.

Items 4A, 4B and 5 in the Cost of Services section of Contractor's response are optional items. The total contract amount awarded is \$43,574.95 which includes Optional Items 4A, 4B and 1 of Item 5. In the event the contract is renewed by City, all optional items to be purchased during the renewal period will be determined by the City based on the then available budget.

4B.	12	Holiday Light Decorations – Section 4B	\$83	\$996
5.	2	Holiday Light Decorations- (Ground Display) – Section 5	\$5,640	\$11,280

TOTAL PROJECT COST is: \$49,214.95

- Any extensions to the contract will be subject to the conditions as described in Paragraph 9 (Contract Period) of the Request for Proposal #585-9851.
- Additionally, decorations can be moved for a one-time cost of \$75.00 per decoration.

2. Terms

Brandano Displays, Inc. agrees to the terms as outlined in the Request for Proposal #585-9851.

3. Product Specifications

General

We have met or exceeded all product and services specifications of the Request for Proposal. A photograph of the decoration is attached and a sample is available at our facilities in Pompano Beach. An outline of our unique fabrication process follows:

Decoration Power Load

All products are illuminated with 110-volt single-phase alternating current. The displays are grounded and feature a three-prong straight plug. No plug will power more than 1000 watts. The power required to illuminate each display is provided with the product descriptions as watts. **The proposed decoration for the Fort Lauderdale Parks and Recreation area will be a 6' Diameter Snowflake and the wattage will be 630 watts each.**

The Displays (Snowflakes)

All the displays (Snowflakes) are provided and produced by Brandano Displays Inc. of Pompano Beach, Florida. Brandano Displays, for over 28 years, has produced and designed holiday-themed programs for downtown streetscapes, parks, zoos and commercial complexes throughout the United States and Canada.

Each of your Snowflake sculptures will be hand-crafted to the industry's highest standards. Our fabricating process is as follows: all Snowflakes are constructed of steel pipe, hand formed into the desired design and welded where necessary. The sculpture is then welded to a heavy-duty steel mounting bracket.

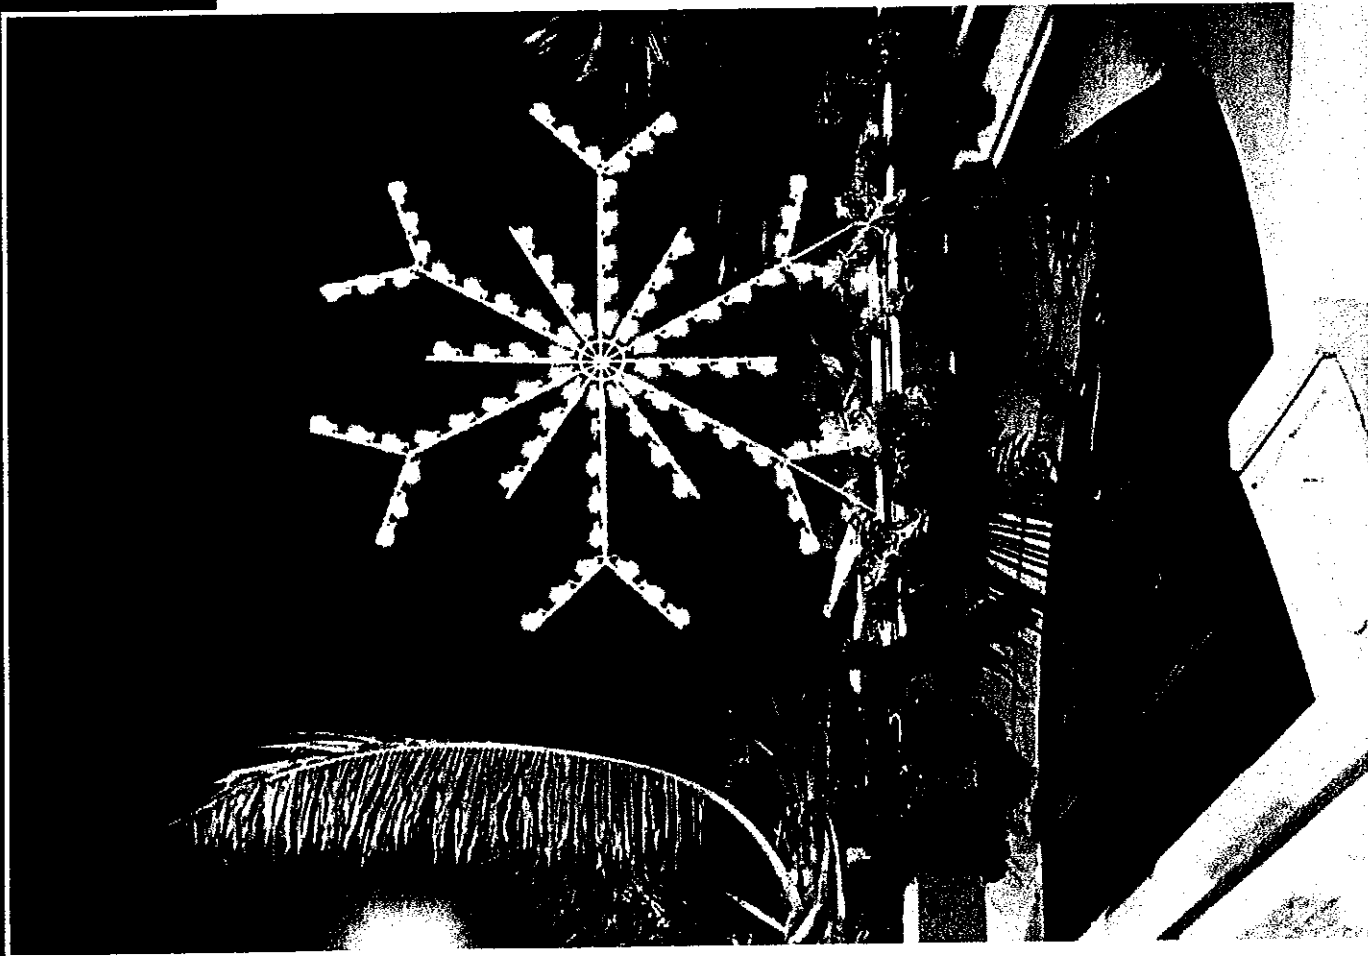

With the exception of the ground lug, the display is painted with two coats of electrostatic applied rust resistant powder coating and let to cure for a minimum of 48 hours.

Light line (wire with pre-attached sockets) is attached to the frame at each socket location with a patented nylon clip designed to keep the socket 3/8 of an inch from the steel pipe. Also the wire is secured between sockets with a nylon tie wrap. The socket spacing is 4.5" along the frame. An 8' lead and molded three-prong Edison plug is terminated to the light line insuring proper polarization. The ground wire is mechanically secured to the lug, which was previously welded to the frame. The hot and neutral wires are spliced as per aviation standards with window-butt connectors rated at 600 volts. The butt connection is stress protected and weather proofed with an adhesive enhanced heat-shrink sleeve, which is designed to fuse to the insulation of the wires being spliced and the butt connector itself.

This procedure eliminates the opportunity for a butt splice to be accidentally pulled apart. With this procedure the chord set wire will break before a spliced area will fail. The maximum wattage distribution for a lead is 1000 watts at 120 volts.

All displays (Snowflakes) are tested at the factory with circuits that are ground fault protected before delivery each season.

A permanent 27" bracket is mounted to the pole with 2 double wraps of **solid ½"** stainless steel banding. We use the "**Bandit**" **Brand** stainless steel strapping system. We have used this mounting system successfully in heavy weather throughout the country for over 30 years without a failure.

4. Product Features

Brandano Displays, Inc. meets all quality features as outlined in the Request for Proposal.

All of Brandano Displays, Inc.'s products are manufactured to the industry's highest standards at our 50,000 square foot Pompano, Beach Florida facility.

Quality features include:

- All UL listed electrical components.
- Hot-rolled steel frames.
- MIG weld application to ensure smooth clean weld surfaces.
- 1" x 1" angle reinforcement material.
- Chemical bath of frame before painting application.
- White powder-coated backed paint for silhouette designs.
- Structural reinforcement components of decorations painted black.
- Mounting hardware bracket is powder-painted to match color of poles.
- ½" solid stainless banding material is provided to mount bracket to pole (Double Strapped).
- C-7 clear 3000-hour rated 130 volt, long-life commercial grade bulbs.
- Three-prong, grounded straight Edison plug with 10' J cord lead. (Lead and plugs are black).
- Sockets are designed to drain and repel water.
- Sockets are attached to frame with patented nylon clip. Clips provide the ability to enhance the distinct "lines" of the design and provide a clean alternative to tape which will yellow and deteriorate when exposed to ultra violet rays.
- All insulation on the 18-gauge wire and the sockets are produced with ultra violet inhibitors. Socket and wire will be white with the exception of the lead and plug which will be black.
- All splices made with window "butt" connectors and protected with a poly-shrink sleeve.
- 3-season heavy weather warranty.

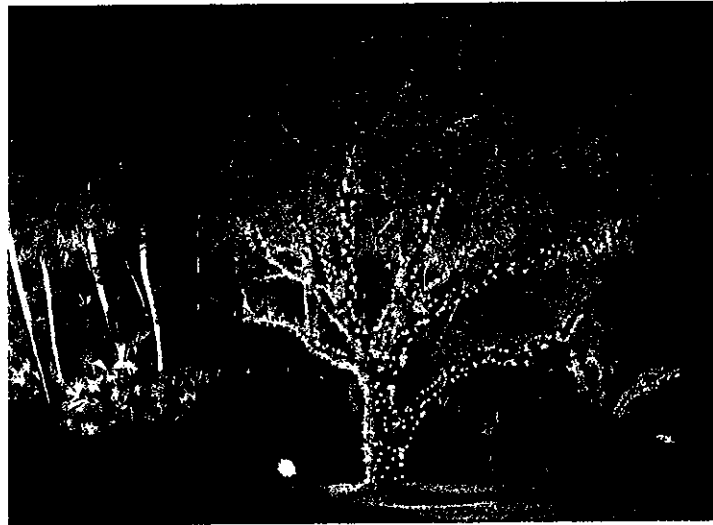

5. Installation, Storage & Maintenance

Brandano Displays, Inc. agrees to meet or exceed the service requests of the Request for Proposal. The following are key points of our service program:

- All products will be installed, dismantled, maintained and stored by Brandano Displays, Inc.
- Installation services will include a one-time attachment of a mounting bracket to the designated poles. Each bracket will be powder-coated to match the color of the pole and attached with two (2) solid stainless steel bands. Each season, prior to installation of the Snowflake, the bracket and bands will be inspected. Loose or damaged hardware will be repaired or replaced.
- Snowflakes will be installed and removed on dates contractually agreed upon.
- While installed, a visual inspection of the Snowflakes will be made nightly. Malfunctioning decorations will be repaired or replaced within 24 hours of inspection or notification by the City. Brandano Displays, Inc. will not be responsible for malfunctioning decorations caused by a malfunctioning electrical source.
- Bulb replacement will be made weekly.
- The Displays will be refurbished before each season's use. Refurbishing will be performed as per our maintenance procedure. This will include an inspection of welds, paint, electrical system and bulbs. All repairs will be done with the actual factory components used during fabrication. Each Snowflake will be tested on a ground –fault protected circuit.
- Storage will be provided on custom racks at our factory location in Pompano Beach, Florida. These racks are designed to minimize damage while the Snowflakes are handled.

The following is the maintenance procedure that Brandano Displays, Inc. uses to refurbish steel sculpture displays:

- Decorations will be visually checked for damage to steel structure and broken bulbs.
- Damaged displays are returned to the weld shop for repair.
- The display's electrical system is visually checked.
- All bulbs are removed and the display is wiped clean.
- All loose clips are repaired.
- Paint chips are repainted.
- All bulbs are replaced.
- Electrical system is checked with new bulbs.
- Any bad sockets or bulbs are replaced.
- Identification tags are checked.
- Electrical cords are rolled up neatly.

1. Statement of Qualifications

The following are the key points of the unique collection of qualifications we bring to this project:

Experience

Brandano Displays, Inc. brings over thirty years experience to this project. We have been working within the scope of this project since our inception. Brandano Displays, Inc. sold its first community pole mounted decorations in 1976 to Fulton, NY. Brandano Displays, Inc. provided the decorations, installed, serviced and maintained the decorations. Since 1976, we have worked with over 2,000 clients nationwide to provide them with exterior holiday decorations. We know what it takes to build a trouble-free decoration and we build these features into every decoration we manufacture.

Full Service / Sole Supplier

Brandano Displays, Inc. is not dependent on outside suppliers or subcontractors. We manufacture all of the products we sell or lease; all the materials to produce your decorations are already at our Pompano Beach location. As a single source, we work on the project from the planning through design, engineering, fabrication, installation and maintenance of your program. We have a full-time staff totally assigned to the fabrication and maintenance of exterior decorations.

Professional Staff

Our in-house staff includes expertise in design, engineering, marketing and fabrication of illuminated decorations. Our team is available to all clients to facilitate the planning and growth of their programs. As your program grows into more neighborhoods and parks throughout Fort Lauderdale, our staff is ready to work with the City staff in their planning, engineering and design to establish Fort Lauderdale as a national focal point during the holidays.

Local Experience

Brandano Displays, Inc. has been contracted by Broward County for the two largest decorating contracts in the region. The Fort Lauderdale Hollywood International Airport has been trimmed and illuminated for the Holidays for the last six years by Brandano Displays, Inc. Our staff designed, engineered, fabricated, maintained and installed this multifaceted four-terminal project. Additionally, Brandano Displays, Inc. is proud to have been the sole display provider for the County's nationally recognized "Holiday Festival of Lights" hosted annually at Tradewinds Park for over ten years.

National Experience

Brandano Displays, Inc. is a leader in the holiday lighting industry. We have designed decoration programs for clients nationwide. Our client list includes: The Bronx Zoo, Bronx, NY; Rockefeller Center, NY, NY; Lincoln Park Zoo, Chicago, IL; Moody Gardens, Houston, TX; The Living Desert, Palm Desert, CA and Pierce County, Tacoma, WA.

Local Manufacturing

Brandano Displays, Inc. controls the fabrication of your decorations. Your decorations will be fabricated by Fort Lauderdale residents and neighbors. All of your investment will remain in the area. We are not outsourcing the responsibility of product production to an out-of-state company.

Principals Only

Through all aspects of the project, you will be dealing directly with John and Pat Brandano, who are the only principals in the history of Brandano Displays, Inc. They control all aspects of the project and will deliver the project as quoted and on time. Should problems develop, they can be handled immediately by decision makers.

Product Quality

Brandano Displays, Inc. products are recognized as the industry's highest quality products. Features have been outlined within this response. They are built for extended use and dependability to provide clients with a problem-free decoration season.

2. Preliminary Scope of Services

The scope of the project as outlined in the Request for Proposal includes the following key points:

General

During the Holidays, The City of Fort Lauderdale desires to welcome residents and visitors with illuminated Holiday Snowflakes as they move about the city enjoying the various entertainment and hospitality venues. The City is seeking a qualified vendor to provide, maintain, install and service the decorations with minimum impact on the city. The decorations and service package can become a model for future Holiday decoration projects throughout the City.

Product Design

The City has approved a design for decorations to be mounted on the street light poles in the decorated areas. The design has been selected to provide an upscale illuminated look for the Holidays which will act as a visual backdrop for visitors to Fort Lauderdale. This design will complement the different architectural appointments in the area and function with the holiday decorations of the individual building owners.

Product Quality

The City is seeking a high-quality durable product which will function in Fort Lauderdale's urban environment. The Snowflakes will be manufactured to function within the climate of "salty" air, high winds, direct UV exposure and potential power surges. The product quality level is the most important step in the maintenance package. Long-life bulbs are employed to minimize bulb burnouts.

Installation

The City desires to have the decorations installed annually on an on-time basis. The vendor will function with the City to make sure that all electrical systems are functioning at the time of installation so that all components of the program are illuminated on the installation date. The installation process should be seamless from beginning to end with minimum impact on the staff of the City.

Safety

The hardware must be installed in a safe professional manner. Banding should be in a permanent manner to withstand winds while the decorations are in place. Temporary installation practices are unacceptable during this installation.

Maintenance

The City desires to have all decorations working nightly during the Season, as outlined in the Request for Proposal. Within 24 hours of notification or discovery, the vendor will replace or repair any malfunctioning decorations. Malfunctioning decorations needing repairs will be replaced with replacement decorations rather than repairing the decorations on-site or by removing the decoration for repair off-site. Scheduled bulb replacement for burnouts will be made during the Season.

Takedown

The City desires to have the decorations removed as soon as possible after January 2, or as agreed annually. This is critical as the City visually prepares for the Winter Tourist Season.

Storage

The decorations should be stored in a clean, mold-free environment to minimize the deterioration of the "new look" of the program. The City should be able to visually inspect the decorations at any time to assure a timely installation for the next season.

Refurbishment

The decorations will be cleaned and repaired annually to insure a "like new" look for the program for each year of the contract. The City wants to avoid the decoration malfunctions caused by the lack of maintenance. All decorations will be cleaned, inspected, tested and repaired annually as per the Request for Proposal to avoid malfunctions or "tired" looking decorations.

Flexibility

The vendor must have staff and resources to meet the unexpected needs of the City related to this project. Fort Lauderdale is growing. Over the term of the agreement, this may include moving of decorations, providing additional electrical and engineering specifications, meeting with neighborhood groups, adding decorations, and providing preliminary planning information for future programs.

Dependability

The vendor must provide all the services and products in a timely manner, as outlined in the contract. The project must be on time and on budget with a minimum impact on the City staff and resources.

3. Ability to Meet the Project Schedule

The following installation schedule is proposed for the project:

<u>Date</u>	<u>Activity</u>	<u>Notes</u>
October 10, 2007	Receive Contract from City	Estimate
October 11, 2007	Confirm Pole Locations	
October 11, 2007	Initiate Fabrication of Decorations	
November 1, 2007	Complete Decoration Fabrication	
November 5, 2007	Complete Hardware Installation	
November 5, 2007	Inspect Electrical Installation	
November 15, 2007	Initiate Decoration Installation	
November 19, 2007	Complete Installation, Inspect and Test	
November 19, 2007	Illuminate Decorations for Season	
January 5, 2008	Initiate Takedown of Decorations	
January 7, 2008	Complete Takedown for Decorations	
January 7, 2008	Place Decorations in Storage	

It is noted that for the initial season of the contract, there is no risk of delays caused by third parties. There is no risk of transportation or supply availability. All raw materials to produce your program are in our control at our Pompano Beach location at this time.

4. Experience

Corporate Overview

Origination

Brandano Displays, Inc. originated as a sole proprietorship founded by John Brandano in 1976. The company has produced exciting displays for over 2,000 clients nationwide. The original company was based in New York and concentrated its business on decorating cities, towns, shopping centers, commercial complexes and enclosed shopping malls for a client base in the Northeast and Mid-Atlantic States. The organization quickly flourished into the nation's most successful distributorship noted for its creative design and ability to deliver the services and products it promised.

Growth

The company grew with Patrick Brandano joining the firm and becoming a partner in 1987. The need for better quality products and timely deliveries challenged Brandano Displays, Inc. to begin the manufacturing of its display products in 1988. Since then all of the products sold by Brandano Displays, Inc. are under their quality control. Brandano Displays, Inc. produces the industry's highest quality displays while providing clients with competitive pricing.

National

Brandano Displays, Inc. incorporated in 1991 as a New York Corporation based in Syracuse, New York. The company was serving clients nationally including major Florida cities. Major exterior display clients at this time included Niagara Falls "Festival of Lights", "International Festival of Lights" in Battle Creek, Michigan, Graceland, Tennessee and Seaworld of Texas.

Florida Headquarters

Brandano Displays, Inc. relocated its manufacturing and corporate headquarters to Florida in 2002 – 2003 to better serve its large base of Florida customers thus becoming Florida's only manufacturer of commercial holiday displays. Brandano Displays, Inc. maintains the nation's largest inventory of large-scale holiday light displays at the Pompano Beach location.

Local Business

Brandano Displays, Inc. has maintained a contract for over 10 years with the Broward County Parks Department to supply the displays for the Holiday Festival of Lights, the state's largest and most successful holiday light event. It is one of the nation's premier holiday experiences. Brandano Displays, Inc. has been providing décor and displays to Florida clients for over 20 years.

Facilities

Today, Brandano Displays, Inc. is headquartered in a modern 50,000 square foot facility in Pompano Beach, Florida. Brandano Displays, Inc. boasts the industry's largest inventory of professionally maintained large-scale displays. An inventory in excess of 2,900 large sculptures is inventoried and maintained in Pompano Beach to service clients nationwide. A 15,000 square foot distribution facility exists in Syracuse, New York, to serve a large base of business in the Northeast. Brandano Displays, Inc. employs over 35 full-time employees in addition to 40 seasonal employees during the peak season.

Professional Staff

Brandano Displays, Inc.'s greatest asset is its professional staff, which includes expertise in engineering, design, manufacturing, marketing, finance and administration of holiday lighting attractions. We would welcome the opportunity to introduce our talented, experienced staff to you.

5. Professional Staff

Brandano Displays, Inc. approaches each project on a team basis to meet the specific needs of the project related to design, engineering, installation and decoration services.

The project team for your project will include:

Project Coordinators

JOHN D. BRANDANO

Position: Partner, President, and Founder

Education: BS SUNY Oswego

Experience: Over 30 years experience in designing, installing, producing and promoting holiday lights. Has acted as CEO since origination of company.

Years with Company: Founder

PATRICK J. BRANDANO

Position: Partner, Executive Vice President

Education: AS Mohawk Valley Community College

Experience: Over 20 years experience in designing, manufacturing, installing and selling holiday lights.

Years with Company: 22

SECTION III

NON-COLLUSION STATEMENT

CITY OF FORT LAUDERDALE

Brandano Displays, Inc.

1280 NW 22nd Street • Pompano Beach, FL 33069

800.777.6903 • Fax 954.956.7256

www.brandano.com

NON-COLLUSION STATEMENT

By signing this offer, the vendor/contractor certifies that this offer is made independently and *free* from collusion. Vendor shall disclose below any City of Fort Lauderdale, FL officer or employee, or any relative of any such officer or employee who is an officer or director of, or has a material interest in, the vendor's business, who is in a position to influence this procurement.

Any City of Fort Lauderdale, FL officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement.

For purposes hereof, a person has a material interest if they directly or indirectly own more than 5 percent of the total assets or capital stock of any business entity, or if they otherwise stand to personally gain if the contract is awarded to this vendor.

In accordance with City of Fort Lauderdale, FL Policy and Standards Manual, 6.10.8.3,

3.3. City employees may not contract with the City through any corporation or business entity in which they hold a controlling financial interest (ownership of five (5) percent or more), unless in their City duties they are not involved in:

- 3.3.1 The award of the contract, or
- 3.3.2 Determining contract provisions, or
- 3.3.3 The enforcement of the contract.

3.4 Immediate family members (spouse, parents, children) are also prohibited from contracting with the City subject to the same general rules.

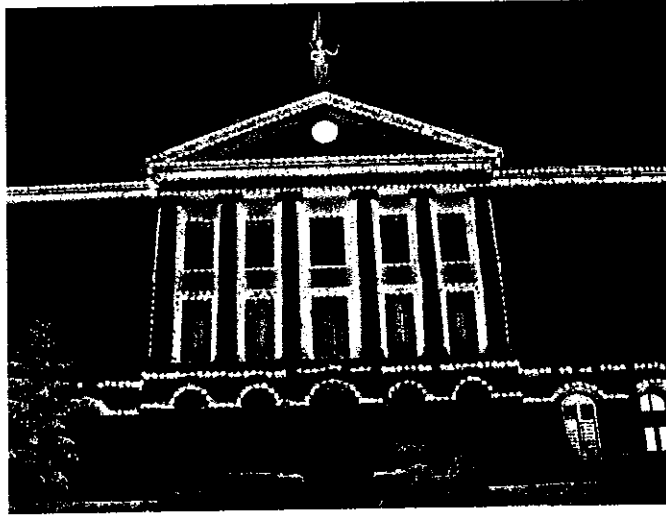

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City Procurement Code.

<u>NAME</u>	<u>RELATIONSHIPS</u>
<u>NONE</u>	<u>N/A</u>
<u>NONE</u>	<u>N/A</u>
	<u>N/A</u>
	<u>N/A</u>

In the event the vendor does not indicate any names, the City shall interpret this to mean that the vendor has indicated that no such relationships exist.
